

SUPPORT THE DREAM ACT

Many undocumented students find colleges and universities doors closed to them because of their immigration status after graduation. These are longtime residents of this country who have grown up and have made the United States their home. By supporting student legalization, we are investing in communities that would eventually benefit from the careers that these students are pursuing. Our communities cannot afford to be ignoring these students anymore!

SUPPORT THE CIVIL LIBERTIES RESTORATION ACT (CLRA Act)

This bill will protect the rights of immigrants from ending blanket secrecy and arrest; ensuring fairness in our legal system; eliminating criminal penalties for technical violations; and establishing an independent immigration court to protect immigrant's due process of law.

National Immigrant Solidarity Network: Our Vision

National Immigrant Solidarity Network (ISN) was formed November 2003 during SOA Protest at Ft. Benning GA. Dozen national grassroots & community groups were agreed to form a broad-based immigrant support coalition, aim to mobilize community forces to work with different national immigrants and civil rights organizations and in solidarity with their campaigns.

That's no secrets that domestically, "War Against terror" is in fact oppressions against immigrants and Muslims. However, the government obviously doesn't really want to get rid of all undocumented workers, because it would be the simplest thing in the world to find them. Everyone knows where undocumented workers work. Everyone also knows that they work at the jobs no one else will take; and that these jobs are the most important and basic. No, we want them here...as long as they don't ask for a living wage and thereby threaten our ongoing massive accumulation of wealth.

It's the time anti-globalization, peace and social justice activists should focus NOT only the international struggles, but also the community struggles where we lives. **THINK GLOBALLY, ACT LOCALLY.**

WE DEMANDS!

OPPOSE CLEAR ACT/HOMELAND SECURITY ENHANCEMENT ACT AND REAL ID ACT

CLEAR Act requires state and local police to enforce federal, civil immigration laws. Using local police to enforce federal immigration laws conflicts with their primary mission of fighting crime in our communities.

REAL ID Act prohibit states from issuing driver's licenses to undocumented immigrants; Require driver's license applicants to prove their citizenship status, and set up a system of "temporary" and "regular" licenses according to one's visa; Make it more difficult for real refugees to get asylum; Make people inadmissible and deportable for First Amendment-protected activity; and Eliminate environmental and other laws standing in the way of completing a section of fence along the U.S./Mexico border.

THE CAMPAIGN AGAINST SEVIS

Student Exchange Visitor Information System (SEVIS) is a computer system for racial profiling that singles out and criminalizes approx. 584,000 international students in the U.S. The USA PATRIOT Act and the Border Securities Act make it mandatory for universities to provide information on international students directly to the INS, the State Dept, the FBI, and other government agencies. Under the law, universities must enter confidential student information into the SEVIS (Student Exchange Visitor Information System) computer system.

NO TO THE FUTURE SPECIAL REGISTRATION

Although it'd declare "ended" by the Bush administration, according from the National Immigration Forum the special registration didn't over and it can come back anytime the government wants to. The "call-in" provisions of the INS Special Registration program require innocent immigrants to report to INS offices to "register", only to find themselves subject to arbitrary arrest, detention, abuse and possible deportation.
